### NEWS RELEASE

## HECLA REPORTS 2.6 MILLION OUNCES OF SILVER AND 60,313 OUNCES OF GOLD PRODUCTION IN SECOND QUARTER 2018

FOR IMMEDIATE RELEASE

July 12, 2018

COEUR D'ALENE, IDAHO -- Hecla Mining Company ([NYSE:HL](#)) today announced certain preliminary results<sup>1</sup> for the second quarter of 2018.

### HIGHLIGHTS

- Silver production of 2.6 million ounces, and gold production of 60,313 ounces.
- Silver equivalent production of 10.5 million ounces or gold equivalent production of 133,158 ounces.<sup>2</sup>
- Lead production of 5,522 tons; zinc production of 14,299 tons.
- Cash, cash equivalents and short-term investments of approximately \$245 million at June 30, 2018, an increase of about \$43 million over June 30, 2017.

“Hecla’s second quarter mine production exceeded expectations due to continued improvements in the mines,” said Phillips S. Baker, Jr., Hecla’s President and CEO. “Greens Creek had higher than expected grades and had about 5% of the tons coming from automated headings. Casa Berardi exceeded expectations due to higher grades and the flexibility of having sources of ore from the underground and the surface. San Sebastian production, while lower than last year, was higher than we expected due to higher grades. This outperformance put the cash position at the second highest in the past six years, which we expect to deploy to acquire Klondex early in the third quarter.”

(1) See cautionary statement regarding preliminary statements at the end of this release.

(2) Silver and gold equivalent calculation based on average actual prices for each metal in the second quarter as follows: \$16.53 for Ag, \$1,306 for Au, \$1.08 for Pb, and \$1.41 for Zn.

## Greens Creek

At the Greens Creek mine, 2.0 million ounces of silver and 13,720 ounces of gold were produced in the quarter. The higher silver and gold production, when compared to the second quarter of 2017, was due to higher ore grades as a result of mine sequencing. The mill operated at an average of 2,290 tons per day (tpd).

## Lucky Friday

At the Lucky Friday mine, 24,686 ounces of silver were produced in the quarter. There was no production in the second quarter of 2017, as limited production performed by salaried staff during the ongoing strike commenced in July 2017.

## Casa Berardi

At the Casa Berardi mine, 42,721 ounces of gold were produced in the quarter, including 8,979 ounces from the East Mine Crown Pillar pit. The mine produced as expected, with an increase of 9,460 gold ounces compared to the second quarter of 2017. The mill operated at an average of 3,845 tpd.

## San Sebastian

At the San Sebastian mine, 0.6 million ounces of silver and 3,872 ounces of gold were produced in the second quarter. Although silver and gold production compared to the second quarter of 2017 were lower, both still exceeded our estimates for the quarter due to the amount of higher-grade stockpile material processed. The mill operated at an average of 415 tpd.
